

Information Session Reflexology

Presented by
Andrea Posada

Thursday
January 25, 2018
(in English)

Time: 11:30am to 12:30pm
in YWALC Room

Reflexology is a focused pressure technique, usually directed at the hands and feet. It is based on the premise that there are zones and reflexes on different parts of the body, which correspond to and are relative to all parts, glands, and organs of the entire body. Join Andrea in this fascinating Information session with live demonstrations.
